

Chairman Apo and Members of the Committee,

My name is Robert H Tanimoto. I support with Amendment, the need for this bill to protect the public by controlling the use of cell phones. I request the council to add to section C: Amateur radio operators, licensed by the Federal Communications Committee, should be excluded from this Bill. I feel it would be impossible to give close and continuous mobile amateur radio support to the Honolulu Marathon, the H U R T 100 race, the March of Dimes, and other organizations without the amendment to Bill 4, CD1.

Thank you hearing me out,

Robert H Tanimoto
